

Coronavirus (COVID-19) Information

Everyone at Pantops Prosthodontics hopes that you and your family have remained safe during these extraordinary times. As we resume patient care, your safety and that of our staff and care providers is paramount. To that end, we want to share some of the changes being implemented in connection with your care:

Patient Care Resumed

- Our clinic will be operating at 20% occupancy to assure strict social distancing can be maintained.
- On the day of your appointment, we ask that you call our office from your car prior to entering the building, at **434-977-9836**.
- A staff member will meet you to take your temperature and ask you our COVID screening questions. Anyone with a fever at or greater than 100.4 degrees will be instructed to return home, speak with their primary care provider and reschedule their dental appointment.
- All patients, visitors, and staff will be required to wear a mask at all times.
- We ask that you come for your appointment alone, or at most, with only one other person as may be necessary.
- You will be asked to use hand sanitizer before treatment.

In addition to the above procedures, Pantops Prosthodontics has used this time of limited operations to enhance air filtration, secure proper protective gear for providers, and to deep clean all clinical areas.

We recognize that you may have some fears and concerns seeking care during this time, but maintaining your oral health is an integral part of your overall health, and we are here to support your well-being.

To make an appointment, please call 434-977-9836.
